MESSAGE FROM CHAIRMAN

Tiruppur, the knitwear capital of India has seen a meteoric rise in the past decades in terms of industrial growth and also in generating employment opportunities for the skilled, semi-skilled and unskilled workforce.

Besides providing a substantial contribution to the GDP numbers and national growth, it is in the sphere of employment generation the industry offers a gamut of opportunities at various levels as designers, merchandisers, and quality control and production supervisors and so on.

The institution was established with the idea of offering courses related to the needs of the knitwear industry to meet the demands of manpower offered by it. The uniqueness of NIFT-TEA is that it is registered under the Societies Act and it is run as a not-for-profit institution with a noble ideal of skilling the younger generation with employable talents and make them an industry-ready work-force.

I am proud to record that NIFT-TEA has rendered substantial contribution in terms of skilling the youth of the county and strongly believe that it will do so in the future days to come.

P. Moghan
Chairman

VISION

To play a catalytic role and spearhead the growth of the knitwear industry by providing scientifically qualified manpower, intellectual and educational resources to meet the challenges posed by globalization and convert them into opportunities.

MISSION

To provide world class education within the reach of every individual with the commitment to offer the best practical and professional training at all times.

OBJECTIVE

The core focus of NIFT-TEA is to provide comprehensive & world-class knitwear education to the student community and thereby creating an on-demand talent pool for the export oriented apparel industry

QUALITY POLICY

At NIFT-TEA Knitwear Fashion Institute “Education for Excellence” is our guiding principle and it is committed to enhance customer satisfaction by providing “Total Quality Education and Training”, in the field of Knitwear and Fashion Design by

- **ADHERING TO EFFECTIVE QUALITY MANAGEMENT SYSTEM**
- **INTERFACING WITH THE INDUSTRY EFFECTIVELY**
- **UPGRADING THE COURSES AT REGULAR INTERVALS TO MEET OUT THE INDUSTRIAL REQUIREMENTS**
- **BY THE INDUSTRY FOR THE INDUSTRY OF THE INDUSTRY**

NIFT-TEA FOCAL POINTS

- Promoted by Tiruppur Exporters' Association
- Pioneer in Knitwear Fashion Education in India
- Established in 1995
- Statutory body under the Society Act
- 17 Programmes
- UG, PG, PG Diploma, PhD
- 7100 + Alumni
- Future & Industry Ready Curriculum
- Industry Connect
- On Campus Placement
- Global Connect
- State of the art Infrastructure

THE INSTITUTE

When the knitwear industry in Tirupur grew by leaps and bounds, it created a demand for skilled manpower to match with the increase in industrial units. This need was sensed by all the entrepreneurs and exporters which mooted them to lay foundation for an institution exclusively dedicated to fashion and knitwear education and thus was born NIFT-TEA Knitwear Fashion Institute.

NIFT-TEA Knitwear Fashion Institute was promoted by Tirupur Exporters' Association (TEA) Established in the year 1995, registered under the Tamil Nadu Societies Registration Act, 1975 with the initial grant by the Ministry of SSI & ARI, Govt. of India, New Delhi.

By the year 2008, the Governing Council of NIFT-TEA Knitwear Fashion Institute decided to expand its educational service by starting a new College "NIFT-TEA College of Knitwear Fashion" under the affiliation of Bharathiar University, Coimbatore to offer Under Graduate, Post Graduate, PG Diploma & Research Programs.

- Tiruppur Fashions Cluster Pvt. Ltd - Design Studio

DIFFERENTIATORS

- It is not-for-profit, governed by Societies Act.
- It is an institute nourished by 224 member exporters.
- Only college in the world exclusively dedicated to Knitwear & Fashion.
- Plenty of internship opportunities to provide hands - on experience.
- Part time jobs for students.
- Interdisciplinary flexible courses.
- World class laboratories
- Knowledge exchange programme with leading foreign institutions and companies.
- Entrepreneurial Assistance by exclusive ED Cell.
- 100% Placement Assistance.

NIFT-TEA CAMPUS

The well-designed campus at NIFT-TEA serve the manifold needs of NIFT-TEA community life. It is accepted here that exploring the full potential of student life needs to incorporate parallel methods of learning with provision for complete self-expression.

The main building accommodates lecture halls, Smart Class rooms. The adjacent building right to the academic block houses the research and training laboratories. And the adjacent building left to the academic block is the administrative block having draping lab, IT Lab & library in its first floor.

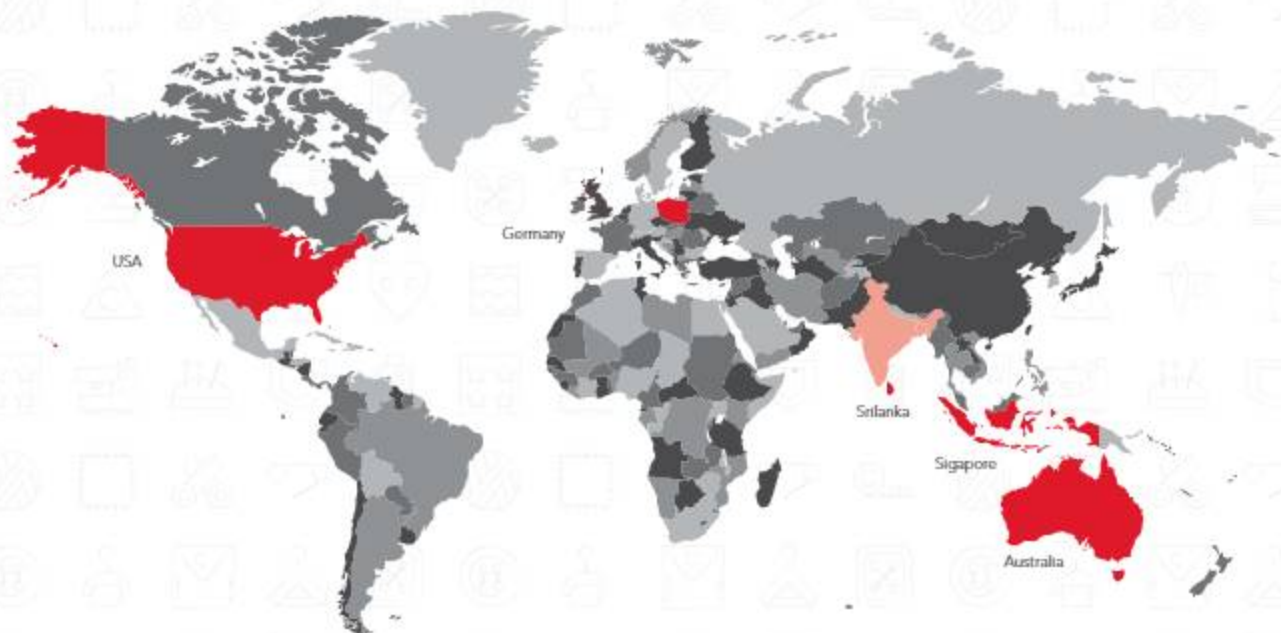

With full of lush green campus having facilities for cultural, recreational and sports activities. The campus is in every sense a melting pot for diverse interests, influences and cultures that blend to create the unique strength that represents NIFT-TEA.

BRIDGING INDUSTRY WITH INSTITUTE

NIFT-TEA is conveniently situated between TEKIC (Tirupur export knitwear industrial complex) and TAHDCO (Tamilnadu Adidravidar housing development Corporation). With more than 300 factories within the premises, these large knitwear industrial complexes offer students extensive opportunities for internships and therefore bring alive the concept of 'Earn-While-Learn'. Various wet-processing units also operate in the periphery. Hence, when students step out of the institute, they have a promising career waiting literally at the doorstep.

NIFT-TEA is recognized throughout the country as a "Center of Excellence" for its pioneering efforts in the field of knitwear education.

GLOBAL CONNECT

Through strategic linkages with various National and International organizations, the college is providing unique and best of its kind technical and research education to the student community.

- M.Sc Apparel Fashion Designing
- PG Diploma in Apparel Merchandising and Management

RESEARCH PROGRAMMES

- Ph.D - Management, Commerce

B.SC. APPAREL FASHION DESIGNING

Apparel Fashion designing is a multi dimensional integrated course with a thorough focus on the intricate nittygritties of apparel designing. Department of AFD offers 3 years undergraduate fashion designing course with six consecutive semesters.

In the duration of six semesters, the student learns to equip and specialize himself on the concept of fiber to apparel in one segment and manual designing to digital aided designing in the other.

CAREER PATHWAYS

- Designer
- Graphic Designer
- Fashion Consultant
- Fashion Choreographer
- Fashion Stylist
- Visual Merchandiser
- Fit Analyst
- Entrepreneur
- Modeling
- Fashion Photographer
- Fashion Merchandiser

ELIGIBILITY

Candidate must have passed in HSC / +2 from a recognized board.

B.SC. APPAREL MANUFACTURING AND MERCHANDISING

Textile Industry faces a major confront, in the era of globalisation. Apparel Manufacturing and Merchandising offers an excellent support to apparel industries. It provides the broader understanding of the processes through the way from fiber to finished garments, with particular focus on production, quality, sourcing and costing. Students experience high knowledge and skill through scholastic approach. The scope of the course extends to collective information of all types woven and knitted fabrics which breeds with latest trends.

CAREER PATHWAYS

- Export Merchandiser
- Quality Controller
- Quality Manager
- Costing Manager
- Production Manager
- Buyer Communication
- Visual Merchandiser
- Apparel Sourcing & Marketing

ELIGIBILITY

Candidate must have passed in HSC / +2 from a recognized board.

B.SC. APPAREL PRODUCTION TECHNOLOGY

The program, Apparel Production Technology is programme to cater the need of Industrial Engineers for the apparel industry. The students learn the basics of industrial engineering techniques in the curriculum and practical learning through Internship and Projects. The curriculum covers various fragments of apparel making such as basic textiles, fabric production & processing, apparel production, giving main focus on Industrial Engineering. It also focuses on developing managerial and leadership skill required for an Industrial engineer.

Career Pathways

- Industrial Engineer
- Planning Manager
- Production Manager
- Factory Manager

Eligibility

Candidate must have passed in HSC / +2 from a recognized board.

B.SC. COSTUME DESIGN AND FASHION

The department of CDF is a world where art meets business, dream meets reality. It offers an opportunity to the students where fame and fortune come soaring on the wings of imagination, innovation and enterprise. The department of Costume Design and Fashion prepares students for professional excellence in design through theoretical and practical approach. An ambience that promotes creativity, intellectual personal growth and diverse experiential learning. This enriching the creative skills of the students and make them world class designers. Our innovative curriculum sets the pace for rapidly changing industry trends.

Career Pathways

- Costume Designer
- Fashion Designer
- Fashion Journalist
- Fashion Consultant
- Fashion Show Coordinator
- Textile Designing
- Visual Merchandiser
- Fashion Entrepreneur

Eligibility

Candidate must have passed in HSC / +2 from a recognized board.

B.SC. FASHION APPAREL MANAGEMENT

The curriculum is structured to fulfill the need of professionals to the knitwear industry. The program offers students an ample exposure to the technical and managerial aspects of knitwear production through core and allied courses. With good foundation in basics of textiles and apparel production, strong emphasis is given on the Merchandising, Costing and Quality assurance. It offers the opportunity to learn the practical aspects of knitwear production through internship and project work. It also focuses on developing concept of entrepreneurship in them.

Career Pathways

- Merchandiser
- Production Executive
- Quality Manager.
- Entrepreneur.

Eligibility

Candidate must have passed in HSC / +2 from a recognized board.

B.SC (CS) ARTIFICIAL INTELLIGENCE AND DATA SCIENCE*

B.Sc Artificial Intelligence and Data Science is a 3-year undergraduate course that integrates data science and artificial intelligence in a collaborative manner. The course prepares students to conduct data-driven investigations using statistical and artificial intelligence techniques. The course aims to make students familiar with the technologies and skills related to AI and data science. The course also makes students understand its application in real-world Problems.

Career Pathways

- Data analyst
- Junior Data Scientist
- Data scientist
- Analaizer
- AI specialist
- AI Engineer
- AI consultant
- Data Science Experts

Eligibility

Candidate must have passed in HSC / +2 from a recognized board.

B.SC. COMPUTER SCIENCE

Computer science is a broad umbrella under which any study related to computers, technology, and software reside. With the swiftly mounting state of technology these days, it makes sense that computer science encompasses an innumerable of things. Normally, computer science students gain knowledge of the inner workings of computers, and also the in-house software and applications. As one of the most in-demand fields today, computer science is widely popular and competitive. In fact, most computer-related opportunities lead highest-paying jobs.

Career Pathways

- Software Engineer
- Web Developers
- Network architects
- Computer systems analysts
- Video Game Developer
- Computer Programmer
- Hardware Engineer
- Database Administrator
- Data Scientist
- Security Analyst

Eligibility

Candidate must have passed in HSC / +2 from a recognized board.

B.COM. COMPUTER APPLICATION

Students opting to undergo a course in B.Com (Computer Applications) learn not only the subjects of Commerce, but also taught to use the software technology for their professional requirements. The course bridging commerce and computer applications which helps them to become smart and employable. Training in Computer Applications in the field of commerce is an extra mileage in placements. It has an innovative modern curriculum. After the completion of the course, one can join any of the following programmes namely: MBA, MCA, M.Com, M.Com, (CA), ACS, CA, MIB, MSW MIS ERP.

Career Pathways

- Finance Manager
- Corporate / Business Analyst
- Accounts Executive Assistant / Senior Accountant
- Financial / Investment / Market Analyst
- Investments Banker
- Operation Manager

Eligibility

Candidate must have passed in HSC / +2 from a recognized board.

B.COM. PROFESSIONAL ACCOUNTING

B.Com - PA programme is been designed to create accounting and finance professionals as in any other fields like Engineering, Medical, Law and Agriculture etc. There are lots of career opportunities in the corporate field and it is one of the top career choices made by the students in the state as well as in India. A graduate after completion of his/her program can initially join as a trainee or an accountant and also seek employment in various government and private sectors, public accounting firms, marketing firms, budget planning and consultancies.

Career Pathways

- CA/Cost and Works Accountant / Company Secretary
- Export/Import Manager
- Finance Manager
- Stock Broker
- Banker
- Accountant
- Tax Consultant
- Finance Managers
- Certified Public Accountant

Eligibility

Candidate must have passed in HSC / +2 from a recognized board.

B.B.A. INTERNATIONAL BUSINESS

The three year degree B.B.A with specialization in International Business prepares the student with the basics of business administration coupled with the procedures of international trade covering the aspects of international strategic and marketing management, shipping procedures, intellectual property rights and foreign exchange management.

The student besides mastering the intricacies of administration will also equip himself with the nitty-gritty of international business during his course of study.

Career Pathways

The areas of employability are:

- Export manager
- International brand manager
- Global business development executives
- International business consultant
- International finance manager

Eligibility

Candidate must have passed in HSC / +2 from a recognized board.

M.S.C APPAREL FASHION DESIGNING

As an advanced mode of training process, this course offers a wide range of inputs in the area of digital designing, portfolio making and design collection along with a technical project. Subjects like costumes and textiles of the world, fashion Merchandising, creative specialization, surface and accessories designing, fashion photography and visual media and draping enriches the candidate to the technical know hows in commercial product making.

Career Pathways

- Designer
- Graphic Designer
- Fashion Consultant
- Fashion Choreographer
- Fashion Stylist
- Visual Merchandiser
- Modeling
- Fashion Photographer
- Fashion Merchandiser

Eligibility

Candidate must have textile core 3 years Degree with a minimum aggregate percentage of 50%

PG DIPLOMA IN APPAREL MERCHANDISING AND MANAGEMENT

One year PG Diploma in Apparel Merchandising & Management program caters to the need of professionals in the apparel industry. The program offers students an ample exposure to the technical aspects of knitwear production. The scope of the curriculum covers various fragments of apparel making such as pattern making, CAD, sewing, Quality, and Costing & Merchandising along with basics of textiles. It offers the opportunity to learn the practical aspects of knitwear production through internship and project work.

Career Pathways

- Merchandiser
- Production Executive
- Quality Manager
- Entrepreneur

Eligibility

Any 3 years Degree with a minimum aggregate percentage of 50%

INDUSTRY CONNECT

The industrial visits and internships are much sought after by the students, who are ever keen on being one with the industry. Immense opportunities to learn the various facets of garment making is provided by deputing students in every semester to knitwear and ancillary units like Knitting, Dyeing, Printing, and Finishing & Embroidery for internship.

The **“Earn While Learn”** is a system of orienting students with the nitty-gritties of the industry even while studying. The Final Year students undertake part-time employment in the apparel industry, whereby they not only get a stipend for their services,

but more importantly, experience industrial exposure through hands-on training. It is an opportunity for them to transform theory to direct application; witness real-time industry practices and enrich their thought-process & practical experience.

Apart from offering academic programmes, the institute also provides industrial and consultancy services in the following areas.

- Testing and Quality Control of yarn and fabrics.
- Computer Aided Apparel Designing
- Knitting and fabric development
- Export sample designing and development

ART LABORATORY

The foundation training of sketching and illustration happens in this laboratory. Students are mainly engaged in painting, craft and collage work here. This laboratory is also a centre of garment designing. It has a facility of 50 individual modernized drawing tables.

KNITTING LABORATORY

The lab is equipped with 4 track single jersy, 2 track 6 color auto stripe, Mini Jacquard, Interlock Machine, Single Jercy, Rib Machine, Terry, Flat Knitting, Socks Knitting machines to enhance the practical knowledge to students in Knitting..

GARMENT LABORATORY

A total of 165 industrial sewing machines including lock stitch, over lock and flat lock machines are utilized by students to take training in industrial sewing to stitch various garment styles. The lab is facilitated with bass bar electric connection. In addition, industrial cutting machines like straight and band knife machines are used for cutting demonstration purpose..

TEXTILE TESTING

The Textile Testing Lab equipped with the latest equipment to provide practical knowledge to students in Testing Fabrics and Yarn. Apart from providing academic knowledge to students, the department extends its service to the apparel industries too.

CAD LABORATORY

CAD lab with 30 systems with LECTRA CAD software was installed and practiced by students to augment the designing skill to fulfill the industrial need. Digitizer and plotter are the added advantage to the lab.

PATTERN LABORATORY

In this lab, students are trained in the area of manual pattern making and grading process. Measurements of various countries are analyzed and based on this pattern template are created here. Dress forms are further used to check the fit.

DRAPING LABORATORY

In this laboratory, there are dress forms and mannequins in various sizes. The students use the dress forms to check the fit of their garments. In addition to this, these dress forms are used for Draping method of dress making, wherein the student drapes the dress forms in desired styles using muslin and then the draped muslin is used to transfer the pattern onto the original fabric and then stitched into High Fashion Outfits.

COMPUTER LABORATORY

Two labs, each with 50 systems with digital processor. Software's like Corel draw, Adobe Photoshop, and Adobe Illustrator are installed to enhance the student's technical knowledge.

TEXTILE WET LABORATORY

The Textile Testing Lab equipped with the latest equipment to provide practical knowledge to students in Testing Fabrics and Yarn. Apart from providing academic knowledge to students, the department extends its service to the apparel industries too.

PLACEMENTS

The textile industry is the second largest sector requiring enormous human resource. NIFT-TEA strives to cater the technical and managerial needs of the textile related industry and to empower individuals with entrepreneurial base.

As a part of the curriculum, training has been made compulsory for all branch students. These give wide exposure about the various functions of the Industries, and update their knowledge in the latest technology prior to the completion of their studies.

The campus placement activities are regularly carried out and more than 2300 students from our institute belong to UG / PG / PG DIPLOMA of various streams were placed in and around India. Every year around 25 companies are participating in campus interview for their recruitment in their organization. The campus placement offers core and dream placements for the students.

Library

The library, is housed in a comfortable and well furnished hall with more than 5400 sq. ft., and it provides access to the best of the Textile and Business management related digital resources through its subscription to various databases consisting of scholarly and industrially relevant contents. The library has set up 3 (Information Infrastructure for Institution) networks to provide business, industry, environment, and economic information to the users.

Resources : The fully computerized Library Information Systems help the library staff and students tremendously in their day-to-day operations. The Resource Centre offers "Campes iLib software

system" with barcode scanning facility since 2008. Every document in the Learning Resource Centre bears a barcode tag that is used for its circulation. Similarly, all categories of users have a bar-coded identity card. This puts it on par with the best modern libraries in keeping track of the issues and returns in a foolproof manner. An Online Public Access Catalogue (OPAC) system is available in the Learning Resource Centre for the search of resources. The Learning Resource Centre follows open access system, encouraging the user to browse freely in the stack area. The library has set up contacts with libraries for getting articles, copies or books which are not available in our library. Photocopying facility is available on our campus. The users can take photocopies of the study materials at a minimum cost.

Hostel

The College has magnificently designed hostel for men and women with all necessary amenities for boarding and other recreational activities. The hostel has its own Canteen to provide healthy and hygienic food to the students. The Canteen is maintained on a co-operative basis.

SPORTS

NIFT-TEA campus life accommodates a prolific range of extra curricular activities as part of its daily routine. Apart from ensuring the physical well being of students, it is also essentially a way of life for NIFT-TEA-ians and helps them come together on numerous occasions in a spirit of healthy rivalry and true sportsmanship.

CASE STUDY

Through the case studies, students document issues prevailing in the industrial scenario. With relevant data collection, they formulate pertinent methodologies to solve the problems and help the industry to prevent their recurrence. It is also a useful means for the Institute to have an exhaustive database for promoting research in these areas, to find the best possible solutions and suggest preventive measures to the industry.

TRADE FAIR

The India Knit Fair (IKF) is held under the aegis of the AEPC and TEA. Held twice a year, it showcases the spring / Summer & Autumn / Winter Collections. Students of NIFT-TEA are regular participants & winners at the fashion shows, displaying their talents in the designing competitions.

FACULTY STRENGTH

The Institute has experienced faculty who have extensive knowledge in the practical aspects of various courses offered. Eminent industrialists, management experts from industry and experienced professionals are frequenting the institute to interact with the students in enriching their knowledge relevant to their subjects of specialization.

CONVEYANCE

The college has taken all efforts to ensure the commuting of students - as comfortable and accessible as possible. The college buses transport all students from, and to, all the locations in and around Tirupur. This helps the day scholars and local residents reach college on time with comfort.

RECREATION

Students Clubs and Societies constitute the core of NIFT-TEA's campus experience and reflect the quality of excellence outside academic spheres. They serve as common forums to share and promote resources in diverse areas of interest. Student activity hubs enhance learning by developing valuable personality traits and skills that aid their classroom training. Students clubs and societies are also an excellent platform of interaction between existing students, eminent alumni and professionals in related areas of interest and of building networks while exploring career opportunities.

NIFT-TEA college eyes improved placements for 2023-24 pass-out batch

Students have a peek at industry environment at the Knitting Laboratory of NIFT-TEA in Tiruppur.

The Hindu Bureau TIRUPPUR

Having mobilised higher number of recruiters this time around, the NIFT-TEA College of Knitwear Fashion in Tiruppur is planning to hold its placement drive during the first week of April with improved placements for the 2023-24 pass-out batch.

About 350 final year UG and PG students are to take part in the placement exercise that would involve participation of more than 30 enterprises, it is learnt.

The institution run by Tiruppur Exporters Association offers B.Sc. programmes in Apparel Fashion Designing, Costume Design and Fashion, Fashion Apparel Management, Apparel Manufacturing and Merchandising, Apparel Production Technology, and Computer Science; B.Com programmes in Computer Application and Professional Accounting; and B.B.A. International Business.

It also offers M.Sc. Apparel Fashion Designing and P.G. Diploma in Apparel Merchandising and Management. All students in the diploma programme had been placed in the last two years. The placement has been in the range of 60% for UG programmes and 80% for the PG programme in the last couple of years.

The advantage the institution enjoys is the scope it has to provide practical exposure to the students in the enterprises of the over 220 exporters who run the institution. Industrial training is a part of the curriculum for students in all programmes to learn about various functions of the industries and update knowledge in the latest technology well before completing their degrees. Under 'Earn while Learn' initiative, final-year students are given opportunity to work in apparel industry as part-time employees, PV Sathyarayanan, Placement Officer, said.

tion enjoys is the scope it has to provide practical exposure to the students in the enterprises of the over 220 exporters who run the institution.

Industrial training is a part of the curriculum for students in all programmes to learn about various functions of the industries and update knowledge in the latest technology well before completing their degrees. Under 'Earn while Learn' initiative, final-year students are given opportunity to work in apparel industry as part-time employees, PV Sathyarayanan, Placement Officer, said.

The recruiters are mostly from Tiruppur and surroundings, and offer monthly salaries ranging from ₹15,000 to ₹20,000. After gaining experience for two to three years, students placed in these industries get more opportunities to move on to the textile industries based in Ahmedabad, Ludhiana, Delhi and Kolkata. Information on job opportunities in textile industries elsewhere in the country are shared through the alumni network, Mr. Sathyarayanan said.

There are also very many instances of students gaining experience for a few years before starting their own ventures that include boutique shops and export units, he added.

AIC-NIFT TEA to release guide book

TIRUPPUR: Aiming to familiarise entrepreneurs and knitwear businessmen with the basics of apparel process, AIC-NIFT TEA

(Incubation centre for Textile And Apparels) is planning to release a guide book. Speaking to TNIE, AIC-NIFT-TEA (Research and Technical) head S Anil Selvan said, "For the first time, we are planning to bring out a comprehensive book on all apparel processing including knitting, dyeing, printing, compacting, finishing etc. The team is headed by Research Committee Chairman S Senthikumar, who will supervise the entire operations with technical experts." ENS

AIC - NIFT TEA INCUBATION CENTRE FOR TEXTILES AND APPARELS

The pride of NIFTTEA College is the Atal Incubation Centre NIFTTEA which is established with the support of Atal Innovation Mission, NITI Aayog – Govt. of India. AIC-NIFTTEA is a Textile sector-focused and industrial cluster-based incubation centre that supports start-ups working in the areas of textiles and apparel manufacturing value chain. AIC NIFTTEA offers a two-year incubation program for start-ups and also cohort-based incubation in sustainable textiles, industrial textiles, medical textiles, sports textiles and technical textiles. The incubation centre is equipped with world-class innovation laboratories for new product development and testing.

AIC NIFTTEA is well-connected with the centre of excellence and research laboratories, thus it helps the innovators to convert their ideas into a commercially viable product. A pool of technical and startup mentors co-work with startups in the areas of product / process development, market research and fundraising. AIC NIFTTEA received seed funds under Startup India Seed Fund Scheme, HDFC Parivarthan Grant, and DST NIDHI Seed Support Program.
